# ABOUT US

CX Residences at Congressional Village, DST

Carter Exchange (CX), a Carter Funds company, is a national real estate investment and management company that sponsors institutional-quality real estate exchange programs that are intended to qualify for tax deferral under Section 1031 of the Internal Revenue Code.

CX is backed by a team of experts with decades of real estate investment experience and established relationships in both the broker-dealer and real estate brokerage communities. Our investment strategies center around high-growth industries, risk-adjusted returns, a commitment to excellence, and transparent communication.

With over \$2 billion in assets under management, our portfolio includes real estate in sectors that have key long-term demand drivers and offer the potential to provide exceptional value to investors.

Carter Exchange is dedicated to developing strong, resilient, high-growth investment opportunities and assets that deliver long-term value. I could not be prouder of our extremely talented, experienced team.

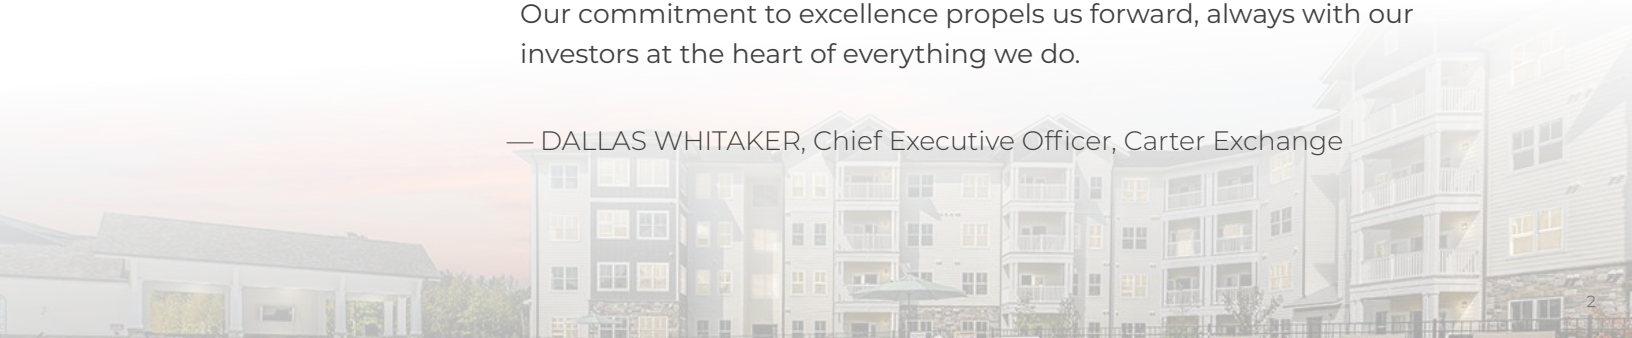

From carefully structuring offerings to managing the daily operations of a property, our team is dedicated to overseeing every aspect of investments to create the highest value for investors.

As an investment sponsor with a long-term perspective, we are confident in our ability to successfully navigate the market while continuing to create value in our programs, as well as position ourselves to capitalize on future investment opportunities.

Our commitment to excellence propels us forward, always with our investors at the heart of everything we do.

# THE CX ADVANTAGE

CX sponsors Section 1031-syndicated Delaware statutory trust investment programs, or DSTs. Our DSTs seek to provide institutional-quality real estate offerings with recurring monthly income, opportunities for growth, and portfolio diversification.

Participating in a 1031 exchange can be a complex process without the right sponsor. Our goal is to simplify that process and offer tax-advantaged opportunities to invest passively and easily in high-quality real estate that performs in any market cycle.

## WHAT MAKES CX A PREFERRED SPONSOR?

Founded in 2019, Carter Exchange has built a strong track record ranking as a DST sponsor by market share, and has structured 26 private placement offerings to date. CX's first two full-cycle deals<sup>1</sup> were completed in 2023 and together produced a 25.27% average annual return and an average total return of 60%.<sup>2</sup>

CX is backed by Carter Funds,<sup>3</sup> a fully integrated real estate investment company led by veterans in the industry. The team has acquired more than \$3.5 billion of real estate since founding Carter Funds in 2019 and plays an active role in identifying investments, structuring offerings, and providing operational management for CX.<sup>4</sup>

**CX is ranked as a Top-Tier 1031 DST Sponsor by Mountain Dell.<sup>5</sup>**

## WITH A FOCUS ON RESULTS FOR INVESTORS,

we seek to continue to enhance investment value throughout the investment period. We manage our multifamily properties carefully through our wholly-owned property management company which allows for the highest level of control over costs and performance.

Our full-service investor relations department provides personalized support to our investors and financial partners.

## WHAT DO INVESTORS VALUE MOST ABOUT CX?

CX real estate is thoroughly vetted by our experienced team. Every asset is acquired based on a strategic plan designed to maximize value and cash flow and managed by our in-house management team. Our deep-rooted industry relationships aid us in strategically acquiring properties in key markets with strong economic growth.<sup>2</sup>

## RECESSION-RESILIENT

CX seeks to acquire high-growth, income-generating properties with recession-resilient characteristics.

With this experienced and dedicated team by your side, **discover how CX can add value to your investment portfolio** through our accretive DST programs

1 - 25.27% is the weighted average annual return of Carter Exchange's completed full cycle deals – CX Station at Savannah Quarters, DST and CX Station at Poplar Tent, DST. These are estimates to the average annual return for each property and may change slightly with a final distribution expected for each deal before the end of 2023.

2 - There is no guarantee that future deals will go full cycle or produce these results. Prior performance is not representative of future results.

3 - An affiliate of Carter Exchange.

4 - As of September 2023. Prior performance is not representative of future results. Information from Carter Funds.

5 - Source - Mountain Dell Consulting.

# THE BENEFITS OF SECTION 1031 DELAWARE STATUTORY TRUST INVESTMENT PROGRAMS

In real estate investing, the ability to defer capital gains taxes while diversifying your portfolio is an appealing prospect. Section 1031 of the Internal Revenue Code has long provided investors with a powerful tool for achieving these goals.

Section 1031 of the Internal Revenue Code allows investors to defer the payment of capital gains taxes when exchanging one investment property for another if certain requirements are met.

## Key Advantages of DST Investment Programs:

Tax Advantages

Diversification

Passive Income

Professional Management

Flexibility and Ease of Entry

## Considerations and Risks:

- DST investments are illiquid, meaning that once invested, it can be challenging to sell or exit the investment before the specified holding period.
- DSTs are subject to market risks and fluctuations, and investors should carefully evaluate the track record and expertise of the DST sponsor before committing their capital.

Section 1031 DST investment programs provide a powerful and accessible avenue for real estate investors to defer capital gains taxes, diversify their portfolios, and benefit from professional management. However, as with any investment, due diligence and careful consideration of the associated risks are crucial. Consulting with a qualified tax advisor and investment professional can help individuals make informed decisions and maximize the advantages of DST investment programs.

# How Carter Exchange Adds Value to Quality Real Estate

Carter Exchange strives to add value to its multifamily properties in a variety of ways aiming to increase income and asset appreciation. We seek real estate investments with operational, physical, and/or market-based enhancement opportunities where real estate experience and expert management can be deployed to realize added value and capital appreciation.

## Beneficial value-add operational practices may include:

- Driving value through vertical integration, including leveraging our own in-house property management, Allegiant-Carter Management, LLC, to ensure proper staffing levels, state-of-the-art leasing and pricing, and quality training. We also have a full-service, in-house investor relations team supporting clients.
- Acquiring multifamily and commercial assets in high-growth sectors that add value in any market cycle.
- Increasing property performance through physical renovations<sup>1</sup>, including unit renovations, the addition of smart home technology, updates to the pool, clubhouse, and fitness center amenities, exterior painting, refreshed landscaping throughout the property, and more.
- Enhancing performance with revenue and lease expiration management systems to establish optimal pricing based on market data and intelligence.
- Acquiring properties that are well-constructed in locations supported by a compelling and diversified set of demand drivers, including growth in population, jobs, businesses, economic development, etc.
- Maintaining properties so they retain an attractive, competitive position in the marketplace.

  
**HERITAGE**  
at RIVERSTONE  
APARTMENT HOMES

1 - Such enhancements shall be completed in accordance with Revenue Ruling 2004-86 and the investment trust regulations.

## RISK FACTORS

There are risks associated with participating in a CX sponsored-offering. An investment in a DST is speculative and illiquid, and it involves significant risks, including the possibility of losing all invested capital. The risks involved with an investment in DST interests (the “Interests”) include, but are not limited to:

- Investors have limited control over the applicable trust.
- The applicable trustees have limited duties to Investors and limited authority.
- There are inherent risks with real estate investments.
- The applicable trust will depend on the applicable master tenant for revenue, and any default by such master tenant will adversely affect the applicable trust’s operations.
- The applicable master tenant and applicable trust depend on the tenants for revenue, and significant occupancy rate fluctuations or defaults by tenants will adversely affect such trust’s operations.
- The applicable trust may suffer adverse consequences due to the financial difficulties, bankruptcy or insolvency of the tenants.
- There are certain risks to the applicable master lease structure, including that the applicable master tenant is an affiliate of Carter Exchange that will have limited capitalization and may be unable to pay rent or perform its other obligations under the applicable master lease.
- The costs of complying with environmental laws and other governmental laws and regulations may adversely affect the applicable trust.
- The loan documents, where applicable, contain various restrictive covenants, and if the applicable trust fails to satisfy or violates these covenants, the lender, where applicable, may declare such loan, if applicable, in default.
- There is no public market for the Interests.
- The Interests are not registered with the Securities and Exchange Commission or any state securities commission.
- Investors may not realize a return on their investment for years, if at all.
- The applicable trust is not providing any prospective Investor with any legal, accounting or business advice or representations.
- Various tax risks, including the risk that an acquisition of an Interest may not qualify as replacement property in a Section 1031 Exchange.

See the applicable memorandum for the full disclosure of risks.

## FORWARD-LOOKING STATEMENTS

These materials include certain forward-looking statements, including without limitation projections and forecasts, with respect to the anticipated future performance of the applicable trust. Such forward-looking statements reflect various assumptions being made by CX as of the date of the applicable memorandum. Investors participating in the particular offering will be subject to significant business, economic and competitive risks, uncertainties and contingencies, many of which are unknown and beyond the control of CX. Accordingly, there can be no assurance that any forward-looking statements will be realized. The applicable trust’s actual performance results may vary from those contemplated by the applicable memorandum and such variations may be material. A more robust description of the risks and uncertainties is set forth in such applicable memorandum.
