

## Solutions | Reg BI Care Obligation Solution

1776ing creates platforms where advisors and their clients join entrepreneurs and capitalists to collaborate, diligence, and invest in private market opportunities to generate wealth and prosperity.

1776ing's integrated Reg BI Competency Testing Tool (RBITT) provides Issuers, Broker-Dealers, and their Registered Representatives with a scalable, tangible way to meet their "duty of care" when recommending Alternative Investments. By making it easier to meet regulatory requirements, we help you accelerate onboarding, broaden distribution and raise capital quicker.

### Issuers Benefits

Gain a competitive edge with 1776ing's Reg BI Competency Testing Tool. This integrated solution helps Broker-Dealers streamline approvals and meet your REG BI Standard of Care.

**Stronger Broker-Dealer Partnerships:** Reduce risk for broker-dealers considering your offering(s), making them more comfortable engaging with you on this and future opportunities.

**Meeting Industry Standards:** Broker-Dealers are under strict oversight by FINRA. 1776ing RBITT makes it easier for them with a competency test that's designed to meet FINRA requirements and other existing industry standards.

**Reduced Sales Barriers:** Provide reps a tool to demonstrate understanding of an offering, leading to shortening the sales lifecycle.

**A Scalable, Long-Term Growth Strategy:** As you expand your private market offerings, having a structured way to educate broker-dealers ensures a smooth onboarding process for new partners while creating a repeatable, scalable tool.

### Get In Touch

For more information on regarding the 1776ing testing tool or our other SaaS-based offerings, contact Jennifer Reznik, Director of Growth Endeavors at [jen@1776ing.com](mailto:jen@1776ing.com).
